WORK EXPERIENCE

Philips

Strategy & Growth Intern, Marketing Operations

Cambridge, MA

June 2026- August 2026

- Lead development of a centralized knowledge management system supporting 10+ stakeholders, consolidating 12 various business processes into a searchable repository to reduce onboarding time and improve operational consistency.
- Collaborate with Marketing Operations, Product Management, and Commercial Operations teams to map catalog workflows, identify documentation gaps, and standardize cross-functional business processes.
- Design the knowledge architecture for an AI-powered support chatbot by organizing documentation for retrieval, defining governance standards, and leveraging Microsoft Copilot to automate knowledge management workflows.

Dublin City Council Culture Company

Marketing and Communications Intern

Dublin, Ireland

May 2025-August 2025

- Cleaned, validated, and uploaded 10 public datasets into the Dublin Cultural Audit Map, improving data accuracy and accessibility across recreational sites.
- Executed outreach campaign to 300+ community organizations, generating 150+ responses and increasing awareness of 14 Henrietta Street Museum programs and the 2025 cultural strategy.
- Implemented a new archive system for the Dublin City Council and organized over 500 items of data and kept them up to date through a digital archive library using Extensis.

Boston College Career Center

Employer Engagement Assistant

Chestnut Hill, MA

August 2025- Present

- Coordinate the planning and execution of career fairs, networking events, and recruiting programs, leveraging digital platforms such as Handshake and LinkedIn to optimize outreach strategies for student-employer engagement.
- Conduct survey analysis on employer recruiting activity, identifying engagement trends that informed outreach strategy and improve employer-student interactions.
- Analyze engagement metrics through Qualtrics to support alumni dashboard reporting and improve event marketing.

Asian Caucus of Boston College

President

Chestnut Hill, MA

March 2026- Present

- Lead a community of 800+ students, supervising a 21-member executive board and coordinating initiatives across 8 affiliated cultural organizations to strengthen campus engagement and cultural programming.
- Direct the planning and execution of 50+ annual events, managing cross-functional teams spanning programming, marketing, finance, content, and outreach to achieve organizational goals.
- Manage a \$2,500+ annual budget while partnering with external vendors and university stakeholders to plan and execute large-scale cultural events, ensuring effective resource allocation and seamless event logistics.

PROJECTS

Sweetgreen Consumer Insights & Marketing Strategy Analysis

Chestnut Hill, MA

- Conducted mixed-methods consumer research including a 7-person focus group and a 100+ respondent survey to identify drivers of customer acquisition, retention, and brand perception.
- Analyzed qualitative and quantitative data using SPSS to evaluate pricing sensitivity, customer value perception, competitive positioning, and visit frequency, translating findings into actionable business insights.
- Developed data-driven marketing recommendations, including value-based pricing, loyalty program enhancements, and targeted promotional strategies, to improve customer retention, perceived value, and competitive differentiation.

Race, Gender, & Wages in High-Skill Occupations

Chestnut Hill, MA

- Analyzed 2015–2019 IPUMS-ACS data using STATA to build multivariate regression models, identifying factors influencing wage outcomes while controlling for demographic, occupational, and geographic variables.
- Applied statistical modeling and hypothesis testing to evaluate interaction effects, translating quantitative findings into evidence-based policy recommendations and communicating insights through a research report.
